Abam TKS: Control of channel bank erosion using permeable groins 21

Alexander Jr. EC, Broberg JS, Kehren AR, Graziani MM, Turri WL: Bellechester, Minnesota, USA, lagoon collapses 353

Almaleh LJ, Grob JD, Gorny RH: Ground Stabilization for foundation and excavation construction in Florida karst topography 308

Al-Sulaimi J, Viswanathan MN, Székely F: Effect of oil pollution on fresh groundwater in Kuwait 246

Beck BF: Editorial: Multidisciplinary conferences on sinkholes and karst: Past, present, and is there a future? 289

Belkin HE, Sparck HM: Mercury, arsenic, antimony, and selenium contents of sediment from the Kuskokwim River, Bethel, Alaska, USA 106

Bencini A, Ercolanelli R, Sbaragli A, Verrucchi C: Groundwaters of Florence (Italy): Trace element distribution and vulnerability of the aquifers 193

Benito G, Machado MJ, Sancho C: Sandstone weathering processes damaging prehistoric rock paintings at the Albarracin Cultural Park, NE Spain 71

Benson RC, Yuhr L: Spatial sampling considerations and their applications to characterizing fractured rock and karst systems 296

Caruso P, Pareschi MT: Estimation of lahar and lahar-runout flow hydrograph on natural beds 141

Chakrapani GJ, Subramanian V: Heavy metals distribution and fractionation in sediments of the Mahanadi River basin, India 80

Chrysikopoulos CV: Artificial tracers for geothermal reservoir studies 60

Currens JC, Graham CDR: Flooding of Sinking Creek, Garretts Spring karst drainage basin, Jessamine and Woodford counties, Kentucky, USA 337

Değirmenci M: Karstification at Beşkonak dam site and reservoir area, southern Turkey 111

DeStephen RA, Benson CP: Groundwater withdrawal impacts in a karst area 314

Edet AE: Groundwater quality assessment in parts of Eastern Niger Delta, Nigeria 41

El-Naqa A: Hydrological and hydrogeological characteristics of Wadi el Mujib catchment area, Jordan 257

Fischer JA, Fischer JJ, Greene RW: Roadway design in karst 321

Flexser S, Wollenberg HA, Smith AR: Distribution of radon sources and effects on radon emanation in granitic soil at Ben Lomond, California 162

Fricke M: Natural mineral waters, curative-medical waters and their protection 153

Gularte FB, Griffis RA, Kasunich JE, Best TC: Case study of compaction grouting for foundation support in karst terrain: Earth and Marine Sciences Building, University of California at Santa Cruz 291

Hasnain SI, Chauhan DS: Sediment transfer in the glacio-fluvial environment–a Himalayan perspective 205

Hubbard Jr. DA, Balfour WM: An investigation of engineering and environmental concerns relating to proposed highway construction in a karst terrane 326

Jancin M, Clark DD: Subsidence-sinkhole development in light of mud infiltrate structures within interstratal karst of the coastal plain, southeast United States 330

Jha PK, Vaithiyanathan P, Subramanian V: Mineralogical characteristics of the sediments of a Himalayan river: Yamuna River–a tributary of the Ganges 13

Johnson E, Klein M, Mickus K: Assessment of the feasibility of utilizing Landsat for detection and monitoring of landfills in a statewide GIS 129

Kargbo DM, Fanning DS, Inyang HI, Duell RW: Environmental significance of acid sulfate "clays" as waste covers 218

Kehinde MO: Preliminary isotopic studies in the Bida basin, central Nigeria 212

Leap DI: Predicting behavior of contaminants in aquifers using apparent relative retardation of surrogates 201

Maggiore M, Santaloia F, Vurro F: Hydrogeological and geochemical study of the springs in San Severino Lucano territory (southern Italy) 33

Mantei EJ, Ernst RL, Zhou Y: Comparison of metal homogeneity in grab, quartered, and crushed–sieved portions of stream sediments and metal content change resulting from crushing–sieving activity 186

Marcus WA, Nielsen CC, Cornwell JC: Sediment budget-based estimates of trace metal inputs to a Chesapeake estuary 1

Parkinson RW, Wang TC, White JR, David JR, Hoffman ME: Distribution and migration of pesticide residues in mosquito control impoundments St. Lucie County, Florida, USA 26

Ratha DS, Sahu BK: Source and distribution of metals in urban soil of Bombay, India, using multivariate statistical techniques 276

Ray JA, O'dell PW: Diversity: A new method for evaluating sensitivity of groundwater to contamination 345

Rember WC, Erdman TW, Hoffman ML, Chamberlain VE, Sprenke KF:Dating of mine waste in lacustrine sediments using cesium-137 242

Robertson JB, Edberg SC: Technical considerations in extracting and regulating springwater for public consumption 52

Saiz de Omeñaca J, Ereño I, Atxabal K, Azurmendi I: Mitigation of adverse effects at the Lezama-Leguizamon abandoned open-pit mine (Bilbao, northern Spain) 10

Schrader EL, Westover ES: Developing sorbent standards for spill response: Effects of the Oil Pollution Act of 1990 and the Free Trade Agreement 47

Shirav (Schwartz) M, Robl TL: Laboratory simulation of natural leaching processes of eastern USA oil shale 88

Skoulikidis NT: Significance evaluation of factors controlling river water composition 178

Sundaresan J: Protection of tropical barrier beaches: a potential remedial measure 272

Toy TJ, Osterkamp WR, Renard KG: Prediction by regression and intrarange data scatter in surface-process studies 121

Voûte C: First geologic map: an interesting contribution to applied geology 286

Wallace III RE: Dye trace and bacteriological testing of sinkholes: Sulphur Springs, Tampa, Florida 362

Wiggering H: Sulfide oxidation–an environmental problem within colliery spoil dumps 99

Wright CI, Mason TR: Management and sediment dynamics of the St. Lucia Estuary mouth, Zululand, South Africa 227

Zaporozec A: Professionalism in hydrology 95

TITLE INDEX

Artificial tracers for geothermal reservoir studies: Chrysikopoulos CV 60

Assessment of the feasibility of utilizing Landsat for detection and monitoring of landfills in a statewide GIS: Johnson E, Klein M, Mickus K 129

Bellechester, Minnesota, USA, lagoon collapses: Alexander Jr. EC, Broberg JS, Kehren AR, Graziani MM, Turri WL 353

Case study of compaction grouting for foundation support in karst terrain: Earth and Marine Sciences Building, University of California at Santa Cruz: Gularte FB, Griffis RA, Kasunich JE, Best TC 291

Comparison of metal homogeneity in grab, quartered, and crushed–sieved portions of stream sediments and metal content change resulting from crushing–sieving activity: Mantei EJ, Ernst RL, Zhou Y 186

Control of channel bank erosion using permeable groins: Abam TKS 21

Dating of mine waste in lacustrine sediments using cesium-137: Rember WC, Erdman TW, Hoffmann ML, Chamberlain VE, Sprenke KF 242

Developing sorbent standards for spill response: Effects of the Oil Pollution Act of 1990 and the Free Trade Agreement: Schrader EL, Westover ES 47

Distribution and migration of pesticide residues in mosquito control impoundments St. Lucie County, Florida, USA: Parkinson RW, Wang TC, White JR, David JR, Hoffman ME 26

Distribution of radon sources and effects on radon emanation in granitic soil at Ben Lomond, California: Flexser S, Wollenberg HA, Smith AR 162

Diversity: A new method for evaluating sensitivity of groundwater to contamination: Ray JA, O'dell PW 345

Dye trace and bacteriological testing of sinkholes: Sulphur Springs, Tampa, Florida: Wallace III RE 362

Editorial: Multidisciplinary conferences on sinkholes and karst: Past, present, and is there a future?: Beck BF 289

Effect of oil pollution on fresh groundwater in Kuwait: Al-Sulaimi J, Viswanathan MN, Székely F 246

Environmental significance of acid sulfate "clays" as waste covers: Kargbo DM, Fanning DS, Inyang HI, Duell RW 218

Estimation of lahar and lahar-runout flow hydrograph on natural beds: Caruso P, Pareschi MT 141

First geologic map: an interesting contribution to applied geology: Voûte C 286

Flooding of Sinking Creek, Garretts Spring karst drainage basin, Jessamine and Woodford counties, Kentucky, USA: Currens JC, Graham CDR 337

Ground Stabilization for foundation and excavation construction in Florida karst topography: Almaleh LJ, Grob JD, Gorny RH 308

Groundwaters of Florence (Italy): Trace element distribution and vulnerability of the aquifers: Bencini A, Ercolanelli R, Sbaragli A, Verrucchi C 193

Groundwater quality assessment in parts of Eastern Niger Delta, Nigeria: Edet AE 41

Groundwater withdrawal impacts in a karst area: DeStephen RA, Benson CP 314

Heavy metals distribution and fractionation in sediments of the Mahanadi River basin, India: Chakrapani GJ, Subramanian V 80

Hydrogeological and geochemical study of the springs in San Severino Lucano territory (southern Italy): Maggiore M, Santaloia F, Vurro F 33

Hydrological and hydrogeological characteristics of Wadi el Mujib catchment area, Jordan: El-Naqa A 257

An investigation of engineering and environmental concerns relating to proposed highway construction in a karst terrane: Hubbard Jr. DA, Balfour WM 326

Karstification at Beşkonak dam site and reservoir area, southern Turkey: Değirmenci M 111

Laboratory simulation of natural leaching processes of eastern USA oil shale: Shirav (Schwartz) M, Robl TL 88

Management and sediment dynamics of the St. Lucia Estuary mouth, Zululand, South Africa: Wright CI, Mason TR 227

Mercury, arsenic, antimony, and selenium contents of sediment from the Kuskokwim River, Bethel, Alaska, USA:

Belkin HE, Sparck HM 106
Mineralogical characteristics of the sediments of a Himalayan river: Yamuna River–a tributary of the Ganges: Jha PK, Vaithiyanathan P, Subramanian V 13
Mitigation of adverse effects at the Lezama-Leguizamon abandoned open-pit mine (Bilbao, northern Spain): Saiz de Omeñaca J, Ereño I, Atxabal K, Azurmendi I 10
Natural mineral waters, curative-medical waters and their protection: Fricke M 153
Predicting behavior of contaminants in aquifers using apparent relative retardation of surrogates: Leap DI 201
Prediction by regression and intrarange data scatter in surface-process studies: Toy TJ, Osterkamp WR, Renard KG 121
Preliminary isotopic studies in the Bida basin, central Nigeria: Kehinde MO 212
Professionalism in hydrology: Zaporozec A 95
Protection of tropical barrier beaches: a potential remedial measure: Sundaresan J 272
Roadway design in karst: Fischer JA, Fischer JJ, Greene RW 321
Sandstone weathering processes damaging prehistoric rock paintings at the Albarracin Cultural Park, NE Spain: Benito G, Machado MJ, Sancho C 71
Sediment budget-based estimates of trace metal inputs to a Chesapeake estuary: Marcus WA, Nielsen CC, Cornwell JC 1
Sediment transfer in the glaciofluvial environment–a Himalayan perspective: Hasnain SI, Chauhan DS 205
Significance evaluation of factors controlling river water composition: Skoulikidis NT 178
Source and distribution of metals in urban soil of Bombay, India, using multivariate statistical techniques: Ratha DS, Sahu BK 276
Spatial sampling considerations and their applications to characterizing fractured rock and karst systems: Benson RC, Yuhr L 296
Subsidene-sinkhole development in light of mud infiltrate structures within interstratal karst of the coastal plain, southeast United States: Jancin M, Clark DD 330
Sulfide oxidation–an environmental problem within colliery spoil dumps: Wiggering H 99
Technical considerations in extracting and regulating springwater for public consumption: Robertson JB, Edberg SC 52
